## DECLARATION OF MARILYN MARKS

MARILYN MARKS hereby declares under penalty of perjury, pursuant to 28 U.S.C. (s) 1746, that the following is true and correct:

1. My name is Marilyn Marks
2. I am the Executive Director of Coalition for Good Governance (“Coalition”).
3. I have personal knowledge of all facts stated in this declaration, and if called to testify, I would testify competently thereto.
4. This declaration authenticates documents Coalition Plaintiffs have received as public records or through discovery in this case.
5. A true and correct copy of a ballot from the June 9, 2020, Fayette County election is attached as Exhibit 19-A and was received in response to a subpoena of the Fayette County Elections Department.
6. A true and correct copy of an email I received from Johnathan Densmore of Cherokee County Elections Office is attached as Exhibit 19-B.
7. True and correct copies of nineteen pages of voter complaints received from the State Defendants’ response to Coalition’s Request for Production are attached as Exhibit 19-C.

8. Documents attached to expert Kevin Skoglund's declaration having Bates numbers 00027310, 00028636, 00029266, and 00046909 are true and correct copies of machine testing reports produced to us by State Defendants in discovery.

9. Exhibit 19-D ballot images and appended AuditMarks are true and correct copies of election records obtained from Fulton County in response to request for production in this case.

Executed this 1<sup>st</sup> day of September, 2020

---

Marilyn Marks

**Subject:** Re: Acceptance testing

**Date:** Friday, August 28, 2020 at 3:47:07 PM Eastern Daylight Time

**From:** Johnathan Densmore

**To:** Marilyn Marks

I have no idea; we are yet to send any of the new equipment for repair. I cannot answer about the DRE's either because by the time I was hired, we had quit sending any units for repair and I had a couple pallets with machines that did not work. As far as the acceptance testing, Michael Barnes and his team @ CES do the acceptance testing and certify it with a state seal. When we get the equipment, I simply put it in rotation, and it gets L&A'ed with the rest of the equipment going out.

**Subject:** Acceptance testing

When you send out a BMD for repair (or in the old days, a DRE), how long does it take you to do acceptance testing? (or if you get in a new unit)

Complaint Type: Touchscreen Concern

Election Date:

County: Fulton

City: Alpharetta

Description of Complaint: I had a bad experience voting at Wills Park Recreational Center on June 9, 2020. I arrived early to vote before the polling station opened. It appears that they were already having problems before the polling station opened as it opened about 10-15 minutes late. Once I got in to vote my voting machine did not work properly. I asked the poll worker for help and she told me it was working as it should. My machine would not put a checkmark next to my selection and this was after I hit the selection button twice as I was instructed. The poll worker told me that as long as it was highlighted that it should be ok. When I printed my ballot nothing was selected. So I had to re-register and vote again. They sent me back to the same station and it still didn't work. I finally asked to go to a different machine and it finally worked. What should have taken no more than 10-15 minutes took me close to an hour and I was about the 10th person in line to vote at a station with at least 5 machines. This was by far my worst voting experience. I'm logging this complaint in hopes that the next time the process will be more efficient and less frustrating.

Complaint Type: Poll Worker Problem

Election Date:

County: Cobb

City: Smyrna

Description of Complaint: Due to mismanagement from the poll manager (Kathleen Williams and area supervisor Janice Blount our precinct did not open at 7:00 am. We opened around 7:10 am. Our precinct received 23 BMDs (Ballot Marking Devices) and 23 printers. The manager only set up 7 Bmds and 7 printers which included the ADA . They did not follow the floor plan that was given. Therefore the social distancing of the machines was not observed. I communicated my concerns on Monday June 8 (set-up day) that we need to set up more machines but my concerns and suggestions to follow the floor plan that was given was met by opposition from the manager who had not ever worked the poll before. The manager did not do any of the hourly reports that was required. The problems we experienced on election day could have been avoided if we just followed the game plan. I would like to discuss this further with someone in the Secretary of State office.

Election Date:

County: Fulton

City: Atlanta

Description of Complaint: It took almost 5 hours to cast our ballots during the 2020 June primary election. My wife and I arrived at approximately 8:28AM on 6/9/2020. We entered the recreation center around 1:05PM and were able to cast ballots using the combination of touch screen, printer, and scanner by around 1:20PM. There appeared to be a total of 8 available screens at max capacity. Our line didn't move for roughly the first 1.5 hours in line.

Complaint Type: Poll Worker Problem

Election Date:

County: Douglas

City: Villa Rica

Description of Complaint: My husband Tim Thomas voted at 7am. He ask for a Democrat ballot so we could vote on some local Douglas county issues. When he put in his card the screen showed no presidential candidates. We knew there should be several because we brought our sample ballot with us. He raised his hand and ask the poll worker why and was told he had no idea. My husband called and told me. At 11:40 I voted, I ask for a democrat ballot and when I put in my card, there were no Presidential candidates. I ask for help and was told because Biden had been already chosen they were taken off the ballot. I ask to speak to a supervisor and was told he was not there. Neither of us were able to vote for a presidential candidate.

Complaint Type: General Complaint

Election Date:

County: Cobb

City: Marietta

Description of Complaint: When i inserted my card into the machine, the names of candidates popped up but I thought it wasn't right to not see their affiliated parties next to their names. We, voters, should have the right to see whether the candidates are Democrats, Republicans, etc. It does not matter if I've researched candidates or not, that's no one's business. Ultimately, it's a great basic tool to have the knowledge at the last minute as one is at the poll. Voting isn't a test in high school in which I should have to remember the correct information for the questions given.

Also, the other issue I encountered was the problem with the printer. Once I finished with my choices, the printer jammed with my ballot. The poll worker eventually fixed the printer but before that he ended up rebooting my computer and several others. I worried my vote wouldn't count. That's not a reassuring feeling. Simple error but was it necessary to have a paper ballot? In this day and age, we should have a better computer system in place. My paper ballot could have been easily misplaced. I also ended up spending much more time there than I anticipated because of a dumb paper jam. Not a smooth process at all. I really hope things progress a lot better come November.

Complaint Type: General Complaint

Election Date:

County: Fulton

City: Atlanta

Description of Complaint: I never received the absentee ballot I applied for via email, so I cast my ballot at my polling location on June 9, 2020. The confusion of the poll workers, their lack of training, the lack of enough poll workers, technical issues with the machines, and other problems were shocking, alarming, and infuriating. Here are some of the issues I encountered:

1. The only reason I knew that I had to tell the poll worker that I did not receive the absentee ballot I requested via email, is because I heard a brief mention of it on WABE the night before. Once I told her, I had to sign an affidavit with a note that I requested an absentee ballot via email but did not receive it. Nowhere at the polling location was it communicated to voters that if they requested an absentee ballot but did not receive it, theyâ?Td have to explicitly state this when checking in. If people did not take this step, did their votes even count? Everyone I know who requested an absentee ballot via email did not receive it, so this affected a vast number of voters. It is utterly unacceptable if these votes did not count, and that this extra step was not communicated to voters in any way.
2. When I told the poll worker the circumstance above and she determined what to do, she had to do real-time training with the other workers who were checking in voters to explain to them how to handle this scenario, both of whom were previously completely unaware, had questions, and one of whom asked if they also need to "call the number" to report it "like the other ones" (no idea what he was referring to), to which the original worker replied "no". She used my affidavit as an example to show the other workers what to do. How is it possible that poll workers were not previously trained on how to handle this scenario, especially with so many voters attempting to vote absentee due to the pandemic? This lack of training and preparation is an enormous failure.
3. When casting my ballot, I could not get the screen to advance and record my vote for the first category (U.S. President). When I selected my choice, it would highlight it, and then when I hit "next" the screen would simply refresh and not show any candidate selection nor advance to the next category. When I asked for help, two poll workers assisted me separately, and both had me go back a screen and try again twice, and then had me take my card out and try starting over. None of the above worked and the second worker was about to seek further assistance when a passerby voter who had just cast her ballot heard me and said, "You have to double-tap the candidate to select, and double-tap when you want to advance to the next screen." This worked and I was able to cast my ballot. I was extremely alarmed that neither of the poll workers knew that that was all that was

necessary to make the selections. It's unacceptable that there were no instructions explaining this anywhere on the screen or before advancing to the first ballot category.

4. I saw a man headed toward the exit with his ballot in hand (presumably thinking it was a copy for him to keep) and was about to leave until another voter told him he needed to cast his ballot into the scanner/ballot box, at which point he turned around and went back to do so. The two poll workers (yes, only two) were busy assisting other voters and therefore did not notice that the man was going to leave with his ballot in hand.

5. I witnessed a man who's voter card would not work three times each at multiple machines, at which point he was issued a new voter card, which also did not work. I was still in line waiting to vote when I first saw him, and he was still not able to vote by the time I left. I don't know if he was ever able to cast his ballot.

6. One machine was already not working less than 1 hour into voting hours.

Please feel free to contact me with questions via phone or email. Despite the blame you've chosen to place everywhere but on yourself, this is YOUR RESPONSIBILITY and the responsibility of your office. These issues need to be addressed immediately and aggressively. Take some ownership of your office and resolve these problems by November.

Complaint Type: General Complaint

Election Date:

County: Troup

City: West Point

Description of Complaint: There were multiple issues with my voting experience:

- 1) When I arrived at 7:06am to vote, the door was locked. I had to knock several times for someone to answer it. Then, the man who answered it only offered a very weak apology. He did not explain how it happened or offer any assurances that it wouldn't happen again.
- 2) At first, the tablet for the poll workers did not work, and it wasn't creating a voting card. Then, it created a card "successfully," which I tried on a voting machine. The voting machine popped up an error message that the RFID card was "unreadable," so I couldn't vote.
- 3) I went back to the poll worker, and she tried to create a new card. However, the tablet said I already voted, which I did not. So, she suggested a provisional ballot, which I did not complete because I had to leave for work. She suggested I come back after work. Moreover, I am registered voter, and my eligibility was confirmed by the tablet. I shouldn't have to complete a provisional ballot.
- 4) The poll workers tried contacting someone for help over the phone but the person never answered.

Overall, this was chaos and unacceptable. The workers should have been better trained, an IT person should have been onsite to help with technical issues. Also, I thought GA was using paper ballots. Why did I need an RFID card to vote?

Complaint Type: General Complaint

Election Date:

County: Muscogee

City: Columbus

Description of Complaint: This was the absolute worst voting day. First, it was very unorganized. There were markings on the floor for social distancing that were not followed. No one was there to enforce it either! I arrived at 7:02 to vote but they didn't get started until 7:15 due to technical difficulties. Only 7 of the 10 machines were working. The sign in process was extremely slow due to the machines not working properly. 4 ID scanners but only 3 working. The setup was not conducive for voting. Anyone could see your screen. Lastly, my ballot was incorrect. I didn't see anything on my ballot regarding the SPLOST. Also, some candidates that I had planned on voting for were not even on the ballot. The ballot had unfamiliar names of candidates that were not in my district. This was awful!

Complaint Type: Provisional Ballot Issue

Election Date:

County: Cobb

City: Powder Springs

Description of Complaint: Arrived at precinct 6:15 am; 4th in line

At 7:30 am, no voters had been allowed to begin the process & poll workers had made no announcement as to the reason for delay. The line in the parking lot was wrapped around the building at this point.

After proactively questioning poll workers, learned machines not working & they were 'rebooting' computers.

Placed a call to Cobb County Board of Elections & Registration @7:50 am to notify them our machines were not working at the precinct. The office was unaware of the problem.

Other voters asked for provisional ballots & were advised they were not available until the end of the day. Some voters started leaving because of the inability of poll workers to provide any time frames for voting or access to provisional ballots.

A Sheriff came to the precinct & shared the problem was state wide & due to programming, NOT poll worker error.

He very professionally shared updates with the voters waiting outside & walked all the lines to share reasons for the delay.

Finally provided a provisional ballot at 9:15 am after my passport i.d. was input manually but the computer did not 'read' the card. My Ballot was successfully scanned after turning in the provisional ballot.

In closing, I am 66 years old & cannot believe a nation that successfully sent astronauts to the moon in the 60's, continues to fail citizens in the most basic tenet of a democracy. Georgia has dozens of excellent universities with thought leaders, engineers, cyber specialists, mathematicians, and policy gurus---we have no excuse for ignoring their talent and continuing to make a mockery of the right to vote. Georgia is way overdue to step up & perform competently.

As a senior, my health, physical access, and mobility should NEVER be adverse factors in my ability

to vote. Case 1:17-cv-02989-AT Document 853-4 Filed 09/01/20 Page 28 of 46

It is projected that one fifth of the population will be seniors in a few years & we must not be excluded from our Constitutional right to vote through sheer callousness & narrow thinking.

Complaint Type: Provisional Ballot Issue

Election Date:

County: Gwinnett

City: Suwanee

Description of Complaint: I had filled out an absentee ballot that I decided not to mail in or drop in a drop box, so I brought it to my precinct. It was collected and cancelled by a poll worker so that I could vote in person. I was given a green card to take to the voting machine. When I inserted the card, no ballot came up, just a message that said the card was not valid. I returned to the line and explained that my card did not work in the machine. I had witnessed this happen to two other voters while I was there and they were given new cards, returned to the voting machine and cast their votes. When the poll worker attempted to give me a new card, she received a message that told her I had already voted. A phone call was then made to ask for guidance. I was told to fill out a provisional ballot, which I did. Since I was the first person in my precinct to submit a provisional ballot, I verified that no other ballots were in the container for holding such ballots and signed a statement saying so. I placed my ballot in the slot and the poll worker closed the lid over the ballot box, at which point he was supposed to lock the box. There was just one problem -- there was no lock for the box. I was asked, "Are you cool with just putting it in here like this?" I said, "I suppose so, since there appears there is no other way to submit my vote. This was the very thing I was hoping to avoid by going to my polling place. I did not want to merely leave my ballot in a box that could potentially be tampered with -- although, I must say, I felt better about leaving it at my precinct than in a box at the park. To summarize, the whole experience left me feeling a little uneasy about the whole process with the new equipment that was being used for the first time. The poll workers were as confused as I was as to why some of the cards were not working, and mine, in particular, stating that I had voted already when my absentee ballot was confirmed cancelled. Luckily, I had no where to be at the time, or it would have been doubly frustrating, as the whole process to cast my vote took about 45 minutes at a precinct with no line. Most unsettling, though, was the fact that the system showed I had voted, when I had not and the lack of security in finally submitting my ballot to an unlocked box. This IS NOT ACCEPTABLE. It is imperative that these problems be fixed prior to November.

Complaint Type: General Complaint

Election Date:

County: Dodge

City: Eastman

Description of Complaint: There was no privacy at the voter booth, people were able to see everything, person at the ballot box was clearly reading votes, touchscreens weren't cleaned between uses, and I was unable to change a selection after clicking the wrong option so I was forced to vote for the wrong candidate.

Complaint Type: Touchscreen Concern

Election Date:

County: Fulton

City: Roswell

Description of Complaint: I'd like to complain about the new touchscreen machines and the set up of these machines at Precinct RW17 (Esther Jackson Elementary) in Fulton County.

Upon entering the building, I immediately noticed a woman voting - as in, I could see her entire screen, what ballot she had, who she was voting for, etc. There was absolutely no privacy. The Precinct was set up to where voting machines were facing all 4 walls of the building.

Also, I am 5'4". The screens were placed so high up that I was having to reach well over my head to make my selection. Further diminishing any privacy to vote.

Third, once I got to the voting machine, it became blatantly obvious that the instructions were not vetted. My screen popped up with some random screen (which was not mentioned anywhere on the posted directions sign), and I had to raise my hand to get help from a poll worker in order to actually see the ballot to vote.

Fourth, in order to make my selection, I had to tap on my candidate of choice twice. Once didn't do anything. Then I had to tap the "Next" button at the bottom of the screen twice in order to make my next candidate selection. Ultimately, it took 4 taps to vote for my candidate of choice, a move that only took 1 tap under the old machines.

Finally, after I had printed my ballot, I went to scan it in. But the scanner was broken. So my ballot was placed in a hole on the side of the box, and I was informed this was the "emergency back-up option." I have no idea if my vote was ever counted.

I believe Fulton County needs further education on how to set up their machines in order to allow voters to vote securely, privately, and without having to stand on their tiptoes to make a selection. I also believe the machines need to be looked at as it shouldn't take 4 taps on the screen in order to vote for 1 candidate.

To vote, blacken the Oval (●) next to the candidate of your choice. To vote for a person whose name is not on the ballot, manually WRITE his or her name in the write-in section and blacken the Oval (●) next to the write-in section. If you desire to vote YES or NO for a PROPOSED QUESTION, blacken the corresponding Oval (●). Use only blue or black pen or pencil.

Do not vote for more candidates than the number allowed for each specific office. Do not cross out or erase. If you erase or make other marks on the ballot or tear the ballot, your vote may not count.

If you change your mind or make a mistake, you may return the ballot by writing "Spoiled" across the face of the ballot and return envelope. You may then mail the spoiled ballot back to your county board of registrars, and you will be issued another official absentee ballot. Alternatively, you may surrender the ballot to the poll manager of an early voting site within your county or the precinct to which you are assigned. You will then be permitted to vote a regular ballot.
