OK we now understand from Carey's filing that the Secretary, preserving his deniability, does not know for sure but "understands" that Dominion has submitted an ECO to the EAC, but on a date that is apparently not knowable. It is not clear why the Secretary and its phalanx of lawyers are powerless to demand of the State's contractor confirmation as to what it is doing – particularly if (as apparently is not the case) the Secretary gives a hoot about EAC certification.

So, Matt, again, can we get the rest of the transmittal documentation and confirmation as to when it was submitted?

Bruce,

We have been more than cooperative with all parties, but it's been a one-way street. Dominion has voluntarily provided thousands of pages of documents on days' notice and witnesses (on many occasions) on even less notice and, yet, we've received zero cooperation from the Plaintiffs on protecting the information we provided voluntarily. I don't know what happened that put the Plaintiffs behind the eight-ball in terms of gathering the evidence for their PI motions, but this is not my client's problem.

-Matt

Matt,

In his filing Friday, Vincent stated: "The same Letter Report has been submitted to the EAC for approval." We now know that if the letter was submitted, it was submitted by Dominion, your client. Matt: was Vincent's statement correct? If so, where is the documentation? Matt, I know you will play this straight, but right now this looks very strange.

Bruce

Matt -

Will you client please provide the EAC submission and any related documentation to the SOS this morning?
Will you please let us know ASAP?

Thanks.
DC
